**TRANSMITTAL OF SUBSTITUTE SPECIFICATION (37 C.F.R. § 1.125)**

Enclosed is a substitute specification for the originally filed specification in this application. Also enclosed is a marked-up (i.e., interlineated) copy of the substitute specification showing the matter being added to and the matter being deleted from the specification.

This substitute specification is being voluntarily submitted in order to facilitate the processing of the application. Specifically, in the cross-reference section, the substitute specification replaces the blanks ("\_\_\_\_") in the original application with the related application serial numbers which subsequently became available, it removes the attorney docket numbers, and it shows that the related application serial number 09/151,530 has now issued as U.S. Patent No. 6,098,106. Further, the substitute specification
